Enclosed herewith is an amended privilege log that includes additional entries from 1999 through 2015. We look forward to receiving Blendjet's privilege log.

Within the next few days, we will send you a letter describing deficiencies in Blendjet's document production. As noted in a few instances herein, Blendjet's discovery responses are deficient in many respects. As Blendtec has done herein, we look forward to receiving bates numbers for the documents that Blendjet produced in response to each of Blendtec's RFPs. We also look forward to receiving an immediate production of additional documents that have not been produced to date as well as a privilege log.

Sincerely,

DORSEY & WHITNEY LLP
